How to Read This Report

Every item the surveyor checked is graded and rolled up into a 0-100 health score. The score is objective - it comes straight from the recorded answers, not the AI narrative.

HOW THE SCORE WORKS

- Each graded answer scores 1.0 (pass), 0.5 (watch) or 0.0 (fail). A section's score is the average x100. Free-text, numbers and Not-Applicable answers are excluded from the score.
- Compliant-answer logic: some questions are healthy when answered 'No' (e.g. 'Is there scrap on the floor?'). Each question records which answer is compliant, so a correct 'No' counts as a pass, not a finding.
- Overall grade: 85-100 Good, 50-84 Fair, below 50 Needs Attention.

■ Good ■ Satisfactory ■ Unsatisfactory

SUMMARY OF FINDINGS

The Facility Shalom facility demonstrates an excellent overall health score of 94, indicating a high standard of maintenance and operational practices. Housekeeping across most areas is commendable, with consistent cleanliness observed in common areas, offices, and specialized rooms. However, specific deficiencies were noted in washroom facilities regarding face locks and air fresheners, and some areas exhibited minor lapses in window cleaning, railing cleanliness, and dustbin availability. These isolated issues, while not significantly impacting the overall score, present opportunities for targeted improvement to achieve a fully compliant environment.

SECTION 01

Assessment by Building

A detailed walkthrough of every building and category surveyed: the status of each item, key facts, risks, recommendations and supporting photographs.

No	Gents washroom details - Washroom air freshener present?
No	Ladies washroom details - Washroom air freshener present?
Satisfactory	Pool cleaning - Are borders of the pool clean?
Unsatisfactory	Windows are wiped clean

+ 33 item(s) rated Good — no action required.

Risks

- Absence of air fresheners in the gents' washroom may lead to unpleasant odors, impacting user comfort.
- Absence of air fresheners in the ladies' washroom may lead to unpleasant odors, impacting user comfort.
- Unsatisfactory cleanliness of windows may detract from the aesthetic appeal and overall hygiene of the area.
- Satisfactory cleanliness of pool borders indicates potential for improvement to achieve optimal hygiene and appearance.

Recommendations

- Provide and maintain air fresheners in the gents' washroom in the 1st Floor > Common Area within 3 days to improve ambient air quality and user experience.
- Provide and maintain air fresheners in the ladies' washroom in the 1st Floor > Common Area within 3 days to improve ambient air quality and user experience.
- Implement a more thorough cleaning schedule for windows in the 1st Floor > Common Area, ensuring they are wiped clean to a 'Good' standard weekly.
- Enhance cleaning procedures for pool borders in the 1st Floor > Common Area to achieve a 'Good' standard of cleanliness, focusing on removing any residual grime or stains, to be completed within 5 days.

SECTION 02

Corrective Action Plan

The prioritised remediation plan - what needs fixing, how urgently, a recommended timeline, and the specific action for every deficiency found.

Every deficiency found during the survey is captured below and prioritised by urgency. HIGH-priority items are safety- or resident-experience critical and should be closed immediately; MEDIUM-priority items are planned improvements. Below: a priority breakdown, a remediation timeline, and the full action list with the specific finding and recommended fix for each.

A recommended schedule for closing each group of issues over the coming weeks.

TIMELINE BY CATEGORY · WEEKS FROM NOW

Action detail

Every corrective action with its finding and recommended fix, highest priority first. The colour stripe + chip group items by area, so you can see at a glance how many priority items each area carries.

SECTION 03

Key Recommendations

The highest-impact actions to improve this facility's health, in priority order.

Key Recommendations

The highest-impact actions to raise this facility's health score, in priority order. Addressing these first will resolve the most critical risks found during the survey.

- 1** Install functional face locks on all washroom stalls lacking them (Ground floor > Common area - Ladies, Basement - Ladies, 4th floor > Gym - Ladies, 4th floor > Gym - Gents) within 7 days to ensure user privacy and security.
- 2** Provide and maintain air fresheners in all washrooms currently lacking them (Ground floor > Common area - Ladies, Basement - Gents, Basement - Ladies, 3rd floor > Common Room - Gents, 3rd floor > Common Room - Ladies, 1st Floor > Common Area - Gents, 1st Floor > Common Area - Ladies) within 3 days to improve ambient air quality and user experience.
- 3** Implement a more thorough cleaning schedule for windows in the 1st Floor > Common Area and 3rd floor > Office cabins, ensuring they are wiped clean to a 'Good' standard weekly.
- 4** Install sufficient dustbins in the 3rd floor > Air Gazebo and 4th floor > Meta room within 3 days to facilitate proper waste disposal.
- 5** Implement a daily sweep and visual inspection for scrap on the floor in the 4th floor > Boardroom, ensuring immediate removal of any debris to maintain safety and cleanliness standards.

Glossary & Notes

TERMS USED IN THIS REPORT

Health score

0-100 objective score computed from the surveyor's graded answers.

Finding

A recorded deficiency (a non-compliant answer) needing corrective action.

Compliant answer

The response to a question that indicates a healthy condition.

N/A

Not applicable - excluded from scoring and from findings.

Checklist

A grouped question whose sub-items are each graded when the parent applies.

ESG

Environmental, Social & Governance / sustainability assessment.

LIMITATIONS & DISCLAIMER

This report reflects conditions observed during a point-in-time on-site survey and the answers recorded by the surveyor. It is not an exhaustive engineering or legal audit. Scores and findings are decision-support, not a warranty of compliance. Photographs are evidence captured on site. Verify critical findings independently before acting.
